MEMORANDUM FOR: National Intelligence Officer for USSR
FROM: Director of Central Intelligence
SUBJECT: Questions Raised by Lloyd Cutler (U)

1. Lloyd Cutler raises the following two questions on the memo for the President of yesterday on updating the data back in 1962-1964.

a. We make a categoric statement that the four brigades in 1962 were to guard four missile units. Are we confident of that?

If that is the case, they should all have been withdrawn.

b. We are reasonably categoric that there has been no training of Cuban units in the last three years. Can we hold on to that degree of certainty?
